## Mini Declutter Cheat Sheet

- If you haven't used it in 6 months, donate or toss it
- Keep only what fits in its 'home' (basket, bin, shelf)
- One in = one out (especially for clothes, toys, or kitchen gadgets)

- Store vertically when possible to save surface space
- Use clear bins for visibility and to avoid forgotten clutter

### **Small Space Reset Routine (Weekly or Biweekly)**

- Sort 'hot spots' (kitchen counter, entryway, nightstand)
- Wipe down mirrors, shelves, and baseboards
- Rotate or store seasonal items
- Restock your cleaning caddy and reset your utility cart
- Reevaluate if anything can be tossed, donated, or hidden better

*TidyNest Tip: Your space doesn't need to be big - it just needs to work for you.*
